The Qualifications and Curriculum Authority (QCA) has published the following guide to give a broad indication of the levels within its framework of National Vocational Qualifications (NVQs).

Level 1

Competence in the performance of a range of varied work activities, most of which may be routine and predictable.

Level 2

Competence in a significant range of varied work activities, performed in a variety of contexts. Some of the activities are complex or non-routine, and there is some individual responsibility or autonomy. Collaboration with others, perhaps through membership of a work-group or team, may often be a requirement.

Level 3

Competence in a broad range of varied work activities performed in a wide variety of contexts, most of which are complex and non-routine. There is considerable responsibility and autonomy and control or guidance of others is often required.

Level 4

Competence in a broad range of complex, technical or professional work activities performed in a wide variety of contexts and with a substantial degree of personal responsibility and autonomy. Responsibility for the work of others and the allocation of resources is often present.

Level 5

Competence which involves the application of a significant range of fundamental principles and complex techniques across a wide and often unpredictable variety of contexts. Very substantial personal autonomy and often significant responsibility for the work of others and for the allocation of significant resources feature strongly, as do personal accountabilities for analysis and diagnosis, design, planning, execution and evaluation.

There is no grading of achievement in NVQs, either for units or the overall qualification.

Details of the units achieved are contained in a separate Certificate of Unit Credit

More information about the framework of qualifications and the requirements of particular National Vocational Qualifications is available from Edexcel on request. In addition, information on all NVQs may be found in the QCA National Database of Vocational Qualifications. The reference code in that database for this qualification is shown on the front of this certificate and commences with Q.
